

- §60.5420a(b)(5): For each pneumatic controller affected facility, the information specified in paragraphs (b)(5)(i) through (iii) of this section.
 - Range does not operate any pneumatic controller affected facilities as identified in §60.5365a(d). *It should be noted that Range operates pneumatic controllers, but they are either low bleed or intermittent devices and as such are not affected facilities.*
- §60.5420a(b)(6): For each storage vessel affected facility, the information in paragraphs (b)(6)(i) through (vii) of this section.
 - Storage vessel affected facilities constructed or modified during the reporting period are included in this report. No storage vessels were removed or returned to service during the reporting period.
- §60.5420a(b)(7): For the collection of fugitive components at each well site, the information in paragraphs (b)(7)(i) through (xii) of this section.
 - Results of the LDAR surveys conducted during the reporting period are included in the report.
- §60.5420a(b)(8): For each pneumatic pump affected facility, the information in paragraphs (b)(8)(i) through (iii) of this section.
 - Pneumatic pump affected facilities constructed during the reporting period are included in the report.
- §60.5420a(b)(12): For each closed vent system routing to a control device or process, the qualified professional engineer certification required in §60.5411a(d).
 - Closed vent system certifications for each storage vessel and pneumatic pump affected facility constructed or modified during the reporting period are included in the report.

Furthermore, Range Resources-Appalachia, LLC does not operate any equipment in a process unit affected facilities as identified in §60.5365a(f), sweetening unit affected facilities as identified in §60.5365a(g), or any collection of fugitive emissions components at a compressor station as identified in §60.5365a(j). Therefore, the reporting elements in §60.5422a and §60.5423a are not applicable.
